

Exercise regularly and get rewarded!

From home, the gym or walking anywhere

How to earn rewards

When you enroll in **HorizonbFit**, Horizon Blue Cross Blue Shield's (Horizon BCBS) fitness incentive program, you can earn a \$20 reward for every month in which you:

- Work out at home 12 or more days a month, and record and submit your workout using the Fit-At-HomeSM feature; or
- Walk 10,000 steps a day for at least 12 days a month; or
- Visit one of 4,000 participating fitness facilities 12 or more days a month; or
- Complete any combination of visiting a participating facility, working out at home or walking 10,000 steps for a total of at least 12 days a month.

You can earn up to \$240 per year in rewards!

Tracking your steps and activity

ActiveFitTM, **HorizonbFit**'s free mobile app, makes syncing your step count and tracking your gym visits easy. When ActiveFit is running, it imports your step count from a compatible wearable device (like a wristband fitness tracker) or mobile app. ActiveFit can also detect when you've entered a participating gym and logs the visit toward your monthly incentive.

Whether you're walking or hitting the gym, ActiveFit does the tracking for you. Download the app for free¹ from the App Store[®] or Google PlayTM.

Staying fit from home

ActiveFit's Fit-At-Home feature provides a simple way for you to report your at-home workouts. To validate your at-home activity, submit your post-workout selfie by following these easy steps:

- Locate the *Fit-At-Home* option in the main menu in ActiveFit.
- Tap the *Get Started* button to open your camera and take a post-workout selfie.
- Once you preview your photo and you're happy with it, click *Upload*.

The photo, along with a geo-location time stamp, allows your activity to be reviewed and approved. Please allow 24 to 48 hours for your Fit-At-Home activity to be accepted.

Note: Photos submitted for a date other than the day the photo was taken will be placed in a pending status and may not be accepted. Please ensure that you have downloaded and installed the latest version of the ActiveFit app.
