The Children's System of Care (CSOC) is accepting new Family Support Services (FSS) applications for Assistive Technology requests.

Our Assistive Technology program is a referral-based program through CSOC that provides essential home and vehicle modifications and assistive technology devices. These enhancements are tailored to boost the functional skills of youths with developmental disabilities, empowering them to thrive within their homes and communities. From accessible bathrooms to ramps, sensory toys to strollers, we're here to make daily life more accessible and enjoyable!
