

THE FALCON FLYER

Students enjoyed the beautiful fall weather and picked their own pumpkins during the 2nd Annual Cozy Lake Pumpkin Patch. The pumpkins were generously donated through a JTEA Pride Grant.

HEAVENLY HATS FOUNDATION

Ellen T. Briggs Students and staff donated money in order to wear a hat and participate in a Hat Parade. The Briggs community raised over \$200 for the Heavenly Hats Foundation, which provides brand-new hats for cancer patients in need.

GOLDEN FALCONS MARCHING BAND

Recently our amazing Marching Band took home the Group 1A 1st place trophy and were awarded the Best Visual, Best Music, Best Overall Effect, and Senior Lily Bacchus was named Best Drum Major.

AROUND THE DISTRICT

Middle School students conducted a multi-part Oreo experiment, attempting to determine how the weight of a regular Oreo cookie compares to a double stuffed Oreo. Students were able to conclude that the double stuffed cookie does have double the amount of the regular Oreo.

The Stanlick community is participating in a weekly DREAM (DRop Everything and Make) period. The time inspires everyone to make connections between our Character Education and STEM programs. Through creative process of building and designing, students are learning how to overcome challenges. Students are enjoying the DREAM period as they engage in activities centered around Lego Education.

JTHS HABITAT FOR HUMANITY

The Habitat for Humanity Club had their first build of the school year. Thirteen club members, along with staff member Mrs. Hutchinson, volunteered their time installing foam boards at the Crossings of Bennett Avenue in Randolph. The club will be volunteering their time again in November.

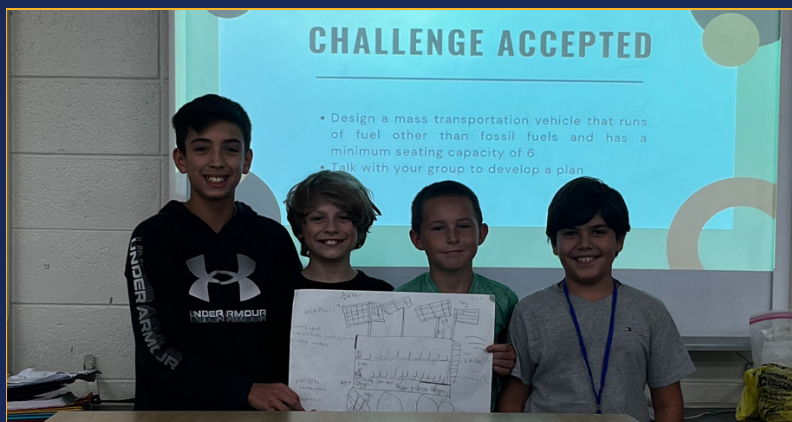

The White Rock Community is Proud of Their Respectful Students

White Rock teachers chose one student from each class who demonstrated respect and honored them on a bulletin board in the main lobby. Students wrote and drew about how they show respect.

White Rock School

In recognition of Respect Week, School Counselors Ms. Eskow and Mrs. Williams coordinated various spirit days and activities for the students to show their personal commitment to demonstrating good citizenship.

Middle School Computer Science Discoveries students are taking what they have learned about problem solving to create an idea for an app that would help with solving a problem. The app must include the concepts of input, output, and processing. The storage must be functional and possess a technologic solution to a problem they feel is important.
