POLICY

2365 ACCEPTABLE USE OF GENERATIVE ARTIFICIAL INTELLIGENCE (AI)

The Board of Education recognizes the use of artificial intelligence (AI) may result in increased and enhanced learning opportunities for students in the school district. The Board adopts this Policy to provide guidelines and expectations for student use of generative AI.

For the purpose of this Policy, "AI" means all types of generative AI technologies that create new content or outputs from a prompt to produce text, images, videos, or music.

For the purpose of this Policy, "AI tools" means software applications and platforms that utilize AI technologies to perform specific tasks and solve problems that typically require human intelligence.

For the purpose of this Policy, "assignment" means any task or work required of a student as part of a student's educational and co-curriculum program in the district.

The Board recognizes the potential of AI tools to enhance and transform a student's educational and co-curricular experience in the district. However, AI tools are not inherently knowledgeable and are trained from large amounts of data collected from various sources. Outputs generated by an AI tool may be inaccurate, inappropriate, or incomplete. Therefore, to ensure the responsible use of AI and to maintain academic integrity, students shall be required to comply with the district's Acceptable Use of Generative Artificial Intelligence Guidelines (AI Guidelines) that will include proper citation and/or documentation methods to support the content provided by an AI tool in a student assignment.

The Superintendent or designee may designate an AI Coordinator to oversee the use of all AI tools in the district and may designate additional AI Coordinators and/or committees to monitor the use of all AI tools within the district.

The Superintendent or designee, in consultation with district staff and AI Coordinator(s), shall develop district guidelines for the use of Artificial Intelligence (AI).

The district's AI guidelines will include details addressing the following issues:
